# Role and Reference Grammar[*]

Version: April 8, 2020

This is a continuing bibliography of works relating to Role and Reference Grammar. Included are advancements to the theory, applications to particular languages, reviews and critiques. Entries are not restricted to published works, but include manuscripts and unpublished theses and dissertations as well. Since this is a work in progress, any additions, corrections, comments, or suggestions are welcomed, and can be sent either to ktora at yorku.ca, cgonzalv at uc.cl or vanvalin at buffalo.edu (change " at " to @).

The most recent news on developments in RRG can be found at the RRG web site (http://www.acsu.buffalo.edu/~rrgpage/rrg.html), which also provides links to downloadable RRG works.

Additionally, there is an RRG discussion list, which can be joined through RRG-list@listserv.buffalo.edu.

Notes:

1. This is an alphabetical listing of references. The author's last name under the entry is indicated by boldface. When there are multiple works by the author, the author's name is repeated with an underline on the last name. This replaces the convention used up to the 2008 version where a short line "——— " was used to signify the same author.

2. Co-authored works on RRG (less than three co-authors) are listed under each author's name for works. For an edited volume, the editor's name has a separate entry if the volume contains multiple works on RRG.
